

ANNEXURE-I
J N T U College of Engineering: Ananatapur

Comments by NPIU	Corrections Incorporated in CIP Submitted on 20-12-2004
Executive Summary	A detailed executive summary reflecting the aims and objectives of the project is included
Academic Excellence	<ul style="list-style-type: none"> • It is proposed to revise the curricula once every two years. Necessary corrections are incorporated • The institute is 57 years old and many of the laboratories contain old and obsolete equipment. Therefore it is proposed to modernize all the laboratories. However bulk of the proposed equipment is for a few laboratories considering the strengths of each department and the industrial needs. • The existing practice is the institution sponsors its faculty members for up gradation of qualification with full salary. Many of the faculty has acquired higher qualification under this scheme. Therefore proposals are not submitted for up gradation of qualifications under faculty development programme
Networking	--
Service to community	Most of the activities proposed are either the Institute is already executing under National Service Scheme (NSS) or the institute is capable of executing. However the proposal for services to the community can be modified as per the suggestions of NPIU
Management Capacity Development	It is proposed to develop the management capacity of the institution by training both faculty and staff, Organising Workshops, arranging study tours to premier institutions and sponsoring staff and faculty for fellowship programmes
Tribal Development	---
Implementation of Reforms	---
Formation of implementation and Monitoring Committees	---
Additional Comments <ul style="list-style-type: none"> • Contract Lecturers • No. of Ph.D students per faculty member 	<ul style="list-style-type: none"> • JNTU is recruiting the faculty regularly and is planning to fill the remaining vacancies within a short time from now • At present the institute is offering part-time Ph.D programmes for working engineers. The candidate who registers for Ph.D can carryout research from his place of work and he can have the guide from the organization for which he is working or from JNTU College of Engineering. In the former case the candidate gets a co-supervisor from JNTUCEA.
