

FORMAT – VI FACULTY AND STAFF DEVELOPMENT PLAN 2006-07

It is certified that a training need analysis has been conducted at the institution and the SD Plan 2006-07 is based on the felt needs of the institution as matched with the departmental and individual needs of the faculty and staff.

(Signature of the Head of the Institution)

Please note that if a person is to be deputed for more than one training in the coming year (2006-07), please include all training to be taken by him or her at one place beside his name instead of repeating it at several places to avoid confusion and to get a clear picture of who goes for training and for how long in 2006-07. Please increase space or add extra sheets if required.
